

PROBLEM 1:

Write a query to list the different bonuses from the employee table, along with the number of employees that earn that bonus, and the greatest salary for employees in that group. Please include only employees who were born before 1995.

EXPECTED OUTPUT:

| BONUS | EMPLOYEES | GREATEST_SALARY |
|--------|-----------|-----------------|
| 100 | 4 | 2550 |
| 200 | 2 | 3500 |
| 300 | 1 | 4500 |
| (null) | 2 | 6000 |
